

**REMARKS**

This is a request to amend the specification after Notice of Allowance. This amendment embodies merely the correction of formal matters in the specification. The amendment is needed to correct a typographical error in the filing date for the Provisional Patent Application, as cited in the Non Provisional Patent Application. A cursory review of the record will show that the correct filing date of the Provisional Patent Application was February 18, 2003. The amendment requires no additional search or examination. This amendment was not presented earlier as the typographical error was not discovered until receipt of the Notice of Allowance.

Applicant also requests consideration of the attached Information Disclosure Statement after Notice of Allowance. Applicant's initial search did not find US Patent Number 5,442,182. Applicant became aware of this patent on or about April 25, 2005 after conversations with co-workers. Review of this patent further revealed the other patents, now listed in the Information Disclosure Statement. An additional \$180 is included as set forth in 37 CFR § 1.17(p).

Accordingly, entry of the proposed amendment to the specification and consideration of the Information Disclosure Statement is respectfully requested.

Respectfully submitted,
